HQS-WF

High Quality Water Filtration Cartridge

Benefits

- Effectively filters out scale, dirt, particles and cloudiness.
- Reduces chlorine and other off tastes and odors.
- The HQS-WF is designed to remove extra-fine particles with **very low pressure drop.**
- The HQS-WF removes moldy and earthy tastes which adversely affect the appeal of beverages.
- The HQS-WF is rated for 3,000 gallons of chlorine reduction at 1.5 GPM.
- Great RO pre-filtration.
- Produces perfect water for premium drinking water applications.
- Fits Everpure QL1 and QL3b heads. Part of a sanitary quick change filtration system

Installation Tips

- Allow 2½" clearance below the cartridge for easy cartridge replacement.
- Service flow rate must not exceed 1.5 gallons.
- No flushing required.
