

UNDER-SINK WATER DISPENSER SERIES

BUBBLE APPLIANCE FOR HOT & AMBIENT WATER

HS-498: BUBBLE Under-Sink Hot & Ambient Water Dispenser c/w Stainless Steel Dual Temp Faucet

HS-498-T: BUBBLE Under-Sink Hot & Ambient Water Dispenser Service Tank HS-498

DTS: Stainless Steel Dual Temp Faucet

Get luxurious and elegant design instant hot and ambient water at the tap with BUBBLE Under-sink Hot & Ambient Water Dispenser. This BUBBLE Under-sink Water Dispenser unit delivers great tasting, piping hot water on demand, and offers a generous capacity of 4.5 liters of hot water.

Heating Technology

SUS316 Medical Grade Stainless Steel: The BUBBLE Undersink Water Dispenser unit utilizes SUS316 medical-grade stainless steel heating element. This material is known for its safety and stability, ensuring the sanitary condition of the water without the risk of eluting harmful substances. The medical-grade stainless steel heating element is sturdy, with a larger dimension, allowing for faster and more efficient water heating.

Thermostat Placement and Efficiency

High-Efficiency Thermostat: The dispenser service tank features a thermal layer system that includes a diversion layer, heating layer, and high-temperature layer to dispense hot water efficiently. This design supports instant heating on demand, rapid temperature compensation, and constant temperature water output. The service tank is made from SUS316 medical-grade stainless steel with a large capacity of 4.5 liters. It can provide 35 liters of hot water per hour, which is equivalent to 70 cups of 500ml each.

Safety Features

Anti-Scald Design: The dispenser is equipped with a thermal insulation structure for the faucet, which includes silicon tubing inserts for heat protection. Additionally, it features a child lock design to ensure safety during use.

WARNING: For Drinking Water Applications, do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

FEATURES & BENEFITS

- Reliable and Safe. Ensures water safety with medical-grade stainless steel and anti-scald
- Efficient Heating. Fast and consistent hot water supply with minimal heat loss
- Dispenses piping hot water on demand with a 4.5 liter hot tank capacity
- High efficiency thermostat placement
- Heat protection for faucet and child lock for ease of use and safety
- Compact unit is easily hidden in any kitchen cabinet or wet bar

SPECIFICATIONS

Model: Hot and ambient water dispenser (HS-498)

Power: 2000W

Capacity: Hot Water 4.5 L

Max. Operating Pressure: 45 psi

Faucet Colour: Stainless Steel Metallic Brushed Finish

Faucet Material: Mechanical Anti-Scald Stainless Steel Faucet

Dimensions:

- Under sink dispenser: W190 x D290 x H410mm
- Faucet Dimension: W155 x H280mm
- Hole Dimension: Φ 32mm

**water filter system sold separately.*
