

WHOLE-HOME AIR TREATMENT SYSTEM

FEATURES/BENEFITS

- Adjustable output
- Induct installation and operation
- Ozone and UV lamps
- Stainless steel construction
- Covers up to 3k square feet
- Quiet and energy efficient
- Microprocessor controlled
- Boost function for extreme odor control
- Universal power outlet
- Odor controller to measure ozone output

AirWaves

Whole-Home Air Treatment System

AirWaves is a whole-home HVAC sterilization system designed to reduce indoor airborne contaminants and unwanted odors, leaving behind fresh, cleaner air, safely and effectively.

Installed in the centralized HVAC system, AirWaves provides “double-layered” protection with two specially-designed lamps. It's this powerful combination that makes all the difference in providing complete protection throughout the home.
