

UNDER-SINK WATER DISPENSER (GLEAMOUS SERIES)

BUBBLE SMART HOME APPLIANCE FOR HOT & AMBIENT WATER WITH DIGITAL FAUCET

K800PRO : BUBBLE Under-sink Hot & Ambient Water Dispenser (Gleamous Series) c/w Digital Faucet
K800PRO-T : BUBBLE Under-sink Hot & Ambient Water Dispenser (Gleamous Series) Service Tank
K800PRO-DF : Digital Faucet for K800PRO

Heating Technology

The BUBBLE Undersink Water Dispenser (Gleamous Series) features a SUS316 medical-grade stainless steel heating element, renowned for its safety and stability. This high-quality material ensures the water remains sanitary without the risk of leaching harmful substances. The robust, larger-dimension heating element delivers 33% faster and more consistent heating compared to previous versions, enhancing overall efficiency.

Constructed entirely from SUS316 medical-grade stainless steel, the water tank offers superior durability, safety, and corrosion resistance. Its design incorporates rapid temperature compensation and maintains a constant temperature for optimal water output. With a generous 4.5-liter capacity, the tank deliver piping hot water on demand and easily meets the hydration needs of families. Additionally, a quick-drain function removes stagnant water after prolonged inactivity, ensuring fresh refills and efficient reheating for ongoing performance.

H5 Touch Faucet Panel

The intuitive H5 touch-control panel and sleek faucet offer effortless operation, while features like ECO mode, child safety lock, and constant temperature settings cater to diverse household needs

-  **ECO Energy-Saving Mode:** Programmable auto-sleep scheduling (8, 12, 24, 48, 72 hours) with 50°C standby mode to minimize energy usage while maintaining readiness.
-  **Temperature Setting ($\pm 2^{\circ}\text{C}$):** Precise temperature control with 10 customizable presets (50, 55, 60, 65, 75, 80, 85, 90, 95°C) for tailored hydration, brewing, or cooking needs.
-  **Safety Lock & Power Management:** Secure Activation—Press and hold the power button for 5 seconds to enable/disable the system. Child Safety Lock—Automatically engages to prevent accidental hot water discharge; requires manual unlock via the control panel for hot water access
-  **Hot water:** Continuous hot water flow for 60 seconds with auto-shutoff to ensure safety and conserve energy.
-  **Ambient water:** Continuous ambient water flow for 60 seconds with auto-stop functionality for efficient usage.

WARNING: For Drinking Water Applications, do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

FEATURES & BENEFITS

- Ensures water safety with medical-grade stainless steel (SUS316) delivering 33% faster boiling and consistent hot water supply with minimal heat loss.
- Large Capacity. Dispenses piping hot water on demand with a 4.5 liter hot tank capacity
- H5 touch faucet panel. Scratch-resistant, durable interface with one-touch ambient/hot water access
- Programmable temperature (10 temp. settings)
- ECO Energy-Saving Mode to reduce energy consumption
- Child Safety Lock, prevents accidental hot water discharge; requires 5-second hold to unlock.
- Under sink design. Saves counter space; only a sleek faucet remains visible

SPECIFICATIONS

Model: Hot and ambient water dispenser

Voltage: 200V

Power: 700W

Capacity: Hot Water 4.5 L

Max. Operating Pressure: 45 psi

Dimensions:

- Under sink dispenser: W190 x D290 x H410mm
- Faucet Dimension: W42 x D170 x H280mm
- Hole Dimension: Φ 32mm

**water filter system sold separately.*

WARRANTY

BUBBLE Division warrants to the original purchaser-consumer of its products that are free from defects in materials and workmanship for a period of six months or one year (when used with a scale-inhibitor filter from Everpure) from the date of purchase. Refer to detailed warranty statement.
