

QR2MW-MC²

QL1X Manifold c/w QR2-48-P5 prefilter, MC2 cartridge, WMM-W water meter, s/s mounting bracket, CPG1.4-18B pressure gauge, activation valve set (3/8") and 1/2" mini ball valve (local assembled)

DELIVERS PREMIUM QUALITY WATER FOR . . . FOUNTAIN & DRINKING WATER

For more than 75 years of experience, Everpure turns ordinary tap water into sparkling, great-tasting water for drinking, cooking and coffee making.

The Everpure QR2MW-MC² System is the practical solution for filtering out disinfectant chlorine, dirt, rust, asbestos fibers, microscopic protozoan cysts and other particulates from drinking water, including oxidized iron, manganese and sulfides.

QR-P5-20: Bubble QR Cartridge w/P5-20
EV961256: MC² Replacement Cartridge

FEATURES / BENEFITS: -

- New and improved Micro-Pure II media with AglON™ antimicrobial protection inhibits any potential bacterial growth.
- Reduce chlorine taste of fountain beverages and helps retain the drinks carbonation.
- Precoat submicron technology reduces dirt and particles as small as ½ micron in size
- Reduce possible health contaminants such as asbestos fibers and Cryptosporidium and Giardia cysts.
- Protects drink system seals, pump, tubing and small orifices from clogging corrosion and abrasive wear.
- Sanitary cartridge replacement is simple, quick and clean. Internal filter parts are never exposed to handling or contamination.

The Everpure QR2MW-MC² System reduces or removes the following contaminants: **

- ✓ Bad tastes and odors
- ✓ Chlorine
- ✓ Dirt and cloudiness
- ✓ Giardia cysts
- ✓ Entamoeba histolytica cysts
- ✓ Cryptosporidium parvum cysts
- ✓ Mold and algae
- ✓ Asbestos fibers
- ✓ Oxidized iron
- ✓ Oxidized manganese
- ✓ Oxidized sulfides
- ✓ 99.9+% of all particles ½ micron and larger in size

This drinking water system must be maintained according to the manufacturer's instructions, including replacement of filter cartridges.

The substances reduced or removed by this system are not necessarily in your water. But it is comforting to know that the right Everpure Drinking Water System can handle most any problem.

Read the performance data sheet.

SPECIFICATION:-

Inlet/Outlet	: ½" BSPT
Flow Rate	: Maximum 1.67 gpm (6.3 Lpm)
Working Pressure range	: 10 -125 psi (0.7 – 8.6 bar), non-shock
Temperature	: 35°F - 100°F (2 - 38°C)
Capacity	: 9,000 gallons (34,068L)
Dimension	: 26.5" H x 18" W x 6" D (67cm H x 46cm W x 15.2cm D) (additional 1.5"/4cm clearance height required below the cartridge)

APPLICATIONS:-

- For fountain beverage applications.
- For drinking water.

**NOTE: The contaminants or other substances removed or reduced by this filtration system are not necessarily present in your water.

EVERPURE
WATER YOU CAN TRUST®

MC² FILTER CARTRIDGE

COSTS FAR LESS TO OPERATE The MC² costs far less to install and operate than bottled water, or other more complicated water treatment processes.

40 TIMES GREATER FILTRATION The MC² provides up to 40 times finer filtration than other home units. Special pre-coat design increases sediment removal efficiency along with improved taste and odor control.

EASY INSTALLATION AND QUICK CARTRIDGE CHANGE The MC² installs easily in less than an hour, using common household tools. Cartridge change takes less than a minute.

The MC² has more filter area than ordinary home units of similar size for more consistent performance and longer life.

Exclusive Micro-Pure® filtering material coats entire pleated surface inside cartridge – eliminates over 99.9+% of all particles ½ micron (1/50,000 inch) and larger for the entire rated life of cartridge.

Pleated surface increases water's exposure to activated carbon for longer cartridge life and improved efficiency.

Easy-change disposable cartridge has metal walls to resist water pressure surges which are known to crack or split some plastic filter housings.

SPECIFICATION:-

Read the performance data sheet.

Flow Rate

Maximum 1.67 gpm (6.3 Lpm)

Temperature

Cold water supply only,
Max. 100°F (38°C)

Pressure

10 – 125 psi (0.7 – 8.6 bar),
non-shock

Capacity

9,000 gal (34,068L)

Everpure Warranty

Everpure Drinking Water Systems are warranted to be free of defects for a full twelve (12) months after purchase. A detailed warranty statement is provided with each system.

THE COMPANY

Everpure, LLC. is headquartered in Hanover Park, IL, a suburb of Chicago, with manufacturing and sales facilities in Belgium and Japan. Since 1933, providing premium quality drinking and cooking water has been our only concern. Our leadership in the field of drinking water is demonstrated by the quality of the customers we serve. Among them are McDonald's, 7-Eleven, Disney World, Coke, United Airlines, Winnebago, and thousands of other companies around the world. Even, the U.S. Navy specifies Everpure systems for every surface ship in its fleet. Everpure provides a fresh alternative to tap or bottled water!

System Tested and Certified by NSF International against NSF/ANSI Standards 42 and 53 for the reduction of:

STANDARD NO. 42 – AESTHETIC EFFECTS

Chemical Reduction
Taste & Odor
Chlorine

Mechanical Filtration
Nominal Particulate, Class I

STANDARD NO. 53 – HEALTH EFFECTS

Mechanical Filtration
Cyst Reduction
Asbestos Reduction

The MC² Filter Cartridge has been certified by NSF only for the functions listed above. Check for compliance with state and local laws and regulations. Do not use where water is microbiologically unsafe or with water of unknown quality without adequate disinfection before or after the unit. Unit may be used on disinfected waters that may contain filterable cysts.
