

## STAINLESS STEEL SERIES

### HIGH QUALITY STAINLESS STEEL CARTRIDGE FOR EFFECTIVE SEDIMENT REMOVAL

SSC-80 : Stainless Steel Cartridge 80 Micron (Made in Italy)

SSC-80

Stainless steel net cartridges are classified as "surface cartridges" with a non-deforming structure, making them ideal for challenging applications such as filtering corrosive liquids or handling high-temperature environments.

The stainless steel net features a specialized REPS structure, offering exceptional strength and high filtration efficiency. All end caps are electrically welded, ensuring durability without the use of resins or adhesives.

These cartridges are reusable and washable, making them highly cost-effective. They can be cleaned by backwashing or using specific cleaning agents.

The SSC-80 stainless steel cartridge is designed to protect your water filtration system and home appliances. It fits standard 10-inch water filter housings and effectively removes heavy sediment, dirt, and particles as small as 80 microns. This advanced pre-filtration cartridge is engineered to extend the lifespan of primary fine filters while maintaining optimal performance.

**WARNING:** For Drinking Water Applications, do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

## FEATURES & BENEFITS

- Easy to clean and re-usable
- Made with stainless steel for exceptional durability and long-lasting performance
- Effectively removes sediment, dirt and rust particles at 80 micron
- Resistant to high temperatures and corrosion
- Fits standard 10" water filter housings

## SPECIFICATIONS

**Dimensions:** 9.75" (L) x 2.6" (OD)

**Core Material:** SS 304

**End Caps:** DOE-PP

**Service Flow Rate:** 2500 Liter/Hr

**Max. Pressure:** 8 bar

**Max. Differential Pressure:** 0.8 bar

**Max. Temperature:** 50°C

**Micron rating:** 80 micron

**Applications:** Water treatment, general industries

## WARRANTY

BUBBLE Division warrants to the original purchaser-consumer of its products that are free from defects in materials and workmanship for a period of one year from the date of purchase. Refer to detailed warranty statement.
